

Senior Civil Designer

Established in 2008, Blue Barn is an environmental, civil and structural engineering consultancy dedicated to delivering top-end professional engineering services all the while working in a collaborative and forward thinking environment.

Due to a pipeline of work and at the start of a significant growth phase we are looking for a **Senior Civil Designer** to join our talented design team.

Joining our skilled team of engineers will not only see you working for a company that really prides itself on creating an environment where people want to come to work but also one that has created a supportive and encouraging learning environment. At Blue Barn you will find yourself immersed in a “family like” culture where you will be heavily involved in all aspects of project delivery which allows you the opportunity to really shine!

To be successful in the role you will require the following.

- A BE (civil), NZCE or an equivalent qualification.
- 8 years plus experience in a similar role and preferably in New Zealand.
- Advanced Civil 3D skills.
- A significant background in design of civil infrastructure.
- Great verbal and written communication skills.
- Chartered or working towards
- Show an ability to be a team player.

Blue Barn is committed to developing its Blue Barners and offers you excellent career progression and professional development opportunities. You will receive an attractive and competitive remuneration package, and get to work in a vibrant, fun office.

Please call **Jo Olivier** on **021 520 906** or email your resume to jo.olivier@bluebarn.co.nz

(Please be assured all applications will be handled with complete confidence).

*****You must be eligible to work in New Zealand*****
